

# 2-day Train-the-Trainer Class on Preventing Occupational Toxic Exposures

The effects of toxic exposures on-the-job may remain latent for years. Proactively meeting the challenges of these hazards today protects workers from cancer and other serious illnesses 10-30 years down the road.

**Workers** need to know the hazards they're working with every day, the potential long-term health effects, and the controls that should be in place to protect them.

**Employers** need to know how to anticipate, recognize and control exposures to occupational health hazards.

All crafts are impacted by occupational toxic exposures.

## What makes this class valuable?

- ⇒ Multi-craft / Labor & Management
- ⇒ Review of new GHS requirements
- ⇒ Guest speakers include an eminent occupational medicine doctor, and reps from HILTI and from Cal/OSHA
- ⇒ New curriculum includes powerpoint, interactive activities & case studies
- ⇒ Equipment demonstrations
- ⇒ Tips & techniques on effectively teaching this information to others
- ⇒ Instructor binder with power point disk, factsheets, web resources
- ⇒ This 2-day training is offered at no cost, due to OSHA funding

After completing this class, all Train-the-Trainer participants are asked to use our information to train at least 20 people at their job sites, apprenticeship programs, union halls, or other appropriate venues and provide documentation to the SBCTC.

## Choose your session:

March 4-5 (T-W) San Leandro  
 March 18-19 (T-W) Modesto  
 April 8-9 (T-W) Arcadia

8:00 a.m. to 4:00 p.m. each day  
 Attendance both days is required

## Sponsored by:

Funded by OSHA, the class is sponsored and conducted by the State Building and Construction Trades Council in cooperation with U.C. Berkeley's Labor Occupational Health Program
